Important

How To Care For Your Fresh Bagels

Our bagels have no preservatives and deserve special care. Fresh oven-hot bagel need to breath, that's why they are in a paper bag. Make sure the bagels are completely cool before putting them into a plastic bag. Store bagels overnight in a plastic bag or slice your bagels then freeze. Avoid microwave ovens, they are distinctly not bagel friendly. Frozen bagels can be toasted without defrosting.

Thanks!

Please Note

Consuming raw or undercooked meats, poultry, seafood, shellfish or eggs may increase your risk of food-borne illness, especially if you have certain medical conditions. Also, not all ingredients are listed on the menu, please let your server know of any food allergies.
